Constitution of a Cabinet Sub Committee to deal with questions relating to food production in Mysore.

It is the desire of the Government of India that the country should be made self-sufficient in the matter of food and that all import of foodstuffs to India from abroad should be stopped by the end of 1951. To this end they have taken various steps. A Commissioner for Food Production has been appointed with special powers and functions. He has been given a special status to enable him to take quick decisions in consultation with the Cabinet where necessary, and to see that the decisions are implemented throughout the country with speed and vigour. The 'Grow More Food' scheme is being intensified with a view to securing the objective of making India self-sufficient in food in three years time. Conferences have been and are being held to review the progress achieved and to think out and plan further measures for accelerating food production. The several Provinces and Unions of States have been advised to concentrate their attention on this important problem and to devise measures, suited to local conditions, to increase the production of food year by year. The appointment of a special officer in each Province and Union to give his exclusive attention to food production and cognate matters has been suggested. The Central Government have also promised subsidies in aid of the Provincial and States schemes to extend the area under cultivation, to develop cultivation under the existing tanks, channels and river valleys and to promote thereby the production of food.

In our own State we are tackling with this food problem in many ways - in pushing ahead with our Grow More Food Campaign, in bringing every available plot of land under cultivation, in encouraging and developing the cultivation of food crops, in affording the raiyat every possible facility

facility and financial help in this direction. The appointment of a Special Officer charged with the sole duty of extending cultivation and augmenting food production is under active consideration of Government. It is, however, obvious that over and above all these various measures to stimulate and increase food production, it is both necessary and desirable to have a small committee, at the highest level, to guide the whole operations, to watch and review the results achieved, to take quick decisions on important questions placed before Government for consideration, to sanction funds in furtherance of the various schemes and activities and, in short, to do everything possible to attain the objective of self-sufficiency in food within the prescribed time. In some of the Provinces a Small Sub Committee of the Cabinet has been constituted to give continuous attention to the food problem, to guide and watch the working of the schemes to sanction funds as and when necessary and to see that delay is minimised, if not avoided, at every stage. Following the example of these Provinces, it is suggested that a Sub Committee of the Cabinet, consisting of the Minister for Finance, the Minister for Home (who is [illegible] in charge of Agriculture and Public Works Departments) and the Minister for Revenue, may be constituted in Mysore to deal with this problem of food production in all its aspects. This will ensure that the question will be tackled at the highest level and will receive the highest priority.

As the Hon'ble Minister for Home is absent from the Head Quarters on tour, the above Council Note is put up for consideration at the next meeting of the Cabinet with the orders of the Chief Minister

Note 'N'

It is the desire of the Government of India that the country should be made self-sufficient in the matter of food and that all import of foodstuffs to India from abroad should be stopped by the end of 1951. To this end they have taken various steps. A Commissioner for Food Production has been appointed with special powers and functions. He has been given a special status to enable him to take quick decisions in consultation with the Cabinet where necessary, and to see that the decisions are implemented throughout the country with speed and vigour. The "Grow More Food Scheme" is being intensified with a view to securing the objective of making India self-sufficient in food in three years' time. Conferences have been and are being held to review the progress achieved and to think out and plan further measures for accelerating food production. The several Provinces and Unions of States have been advised to concentrate their attention on this important problem and to devise measures, suited to local conditions, to increase the production of food year by year. The appointment of a Special Officer in each Province and Union to give his exclusive attention to food production and cognate matters has been suggested. The Central Government have also promised subsidies in aid of the Provincial and States schemes to extend the area under cultivation, to develop cultivation under the existing tanks, channels and river valleys and to promote thereby the production of food.

In our own State we are tackling with this food problem in many ways - in pushing ahead with our Grow More Food Campaign, in bringing every available plot of land under cultivation, in encouraging and developing the cultivation of food crops, in affording the raiyats every possible facility and financial help in this direction. The appointment of a Special Officer charged with the sole duty of extending cultivation and augmenting food production has since been sanctioned with the gracious approval of His Highness and Sri M.K. Appajappa, Deputy Commissioner, has been posted to

this charge. It is, however, obvious that over and above all these various measures to stimulate and increase food production, it is both necessary and desirable to have a small committee, at the highest level, to guide the whole operations, to watch and review the results achieved, to take quick decisions on important questions placed before Government for consideration, to sanction funds in furtherance of the various schemes and activities and, in short, to do everything possible to attain the objective of self-sufficiency in food within the prescribed time. In some of the Provinces a small Sub-Committee of the Cabinet has been constituted to give continuous attention to the food problem, to guide and watch the working of the schemes, to sanction funds as and when necessary and to see that delay is minimised, if not avoided, at every stage.

The question was considered at the meeting of the Council held on the 7th September 1949 when the following resolution was recorded:-

"A Cabinet Sub-Committee to deal with the subjects arising out of the implementation of the Three Year Grow More Food Scheme may be constituted.

The Sub-Committee may comprise of the following:-

1) Chief Minister.
2) Minister for Finance and Industries.
3) Minister for Law and Labour.
4) Minister for Revenue and Railways.
5) Home Minister. "

I solicit the gracious approval of His Highness to the above resolution of the Council.

Minister for Finance and Industries

CIRCULATION NOTE.

Sub- Constitution of a Cabinet Sub Committee to deal with questions relating to food production in Mysore.

It is the desire of the Government of India that the country should be made self-sufficient in the matter of food and that all import of foodstuffs to India from abroad should be stopped by the end of 1951. To this end they have taken various steps. A Commissioner for Food Production has been appointed with special powers and functions. He has been given a special status to enable him to take quick decisions in consultation with the Cabinet where necessary, and to see that the decisions are implemented throughout the country with speed and vigour The 'Grow More Food' scheme is being intensified with a view to securing the objective of making India self-sufficient in food in three years' time. Conferences have been and are being held to review the progress achieved and to think out and plan further measures for accelerating food production. The several Provinces and Unions of States have been advised to concentrate their attention on this important problem and to devise measures, suited to local conditions, to increase the production of food year by year. The appointment of a special officer in each Province and Union to give his exclusive attention to food production and cognate matters has been suggested. The Central Government have also promised subsidies in aid of the Provincial and States' schemes to extend the area under cultivation, to develop cultivation under the existing tanks, channels and river valleys and to promote thereby the production of food.

In our own State we are tackling with this food problem in many ways - in pushing ahead with our Grow More Food Campaign, in bringing every available plot of land under cultivation, in encouraging and developing the cultivation of food crops, in affording the raiyats every possible facility and financial help in this direction. The appointment of a Special Officer charged with the sole duty of extending cultivation and augmenting food production is under active consideration of Government. It is, however, obvious that over and above
